

SPECIFICATION SHEET

Full Body Harness with Confined Space Loops, Lower Chest Loops and Quick Release Buckles

PROUDCT CODE:
SBE3KQR

DESCRIPTION:

Our full body quick release confined space harness. The SBE3KQR features two lower sternal webbing loop attachment points and a dorsal D-ring attachment point for fall arrest. The confined space loops enable vertical entry and exit in tight spaces and allows easy connection to a spreader bar in the event of a rescue. This harness is well suited for use in confined spaces, on mobile work platforms, for roofing, and general use. High strength, aluminium quick release buckles are used on both the legs and chest. Other features include adjustable male/female, and high strength stitch patterns.

SIZING:

Range of sizes to fit from Small up to 5XL

STANDARD:

ASNZ 1891.1:2007
